

NEW YORK CITY THE FUTURE METROPOLIS

What will New York City look like in 20 years? Nanotech, energy monitoring, solar facades, building-integrated gardens, tide turbine projects - the development of these concepts and technologies are currently underway and their future growth can dramatically affect the way we live and work.

Join us for an exciting evening event, “New York City the Future Metropolis,” as we bring to you 10 distinguished panelists speaking on an array of new technologies, research and development projects, and innovative, forward-looking design that enhances the built and outdoor environments.

The format of this event will be PechaKucha. PechaKucha is a simple presentation format where you show 20 images, each for 20 seconds. We’ve designed this event to keep the audience engaged, inspired, and excited about the future.

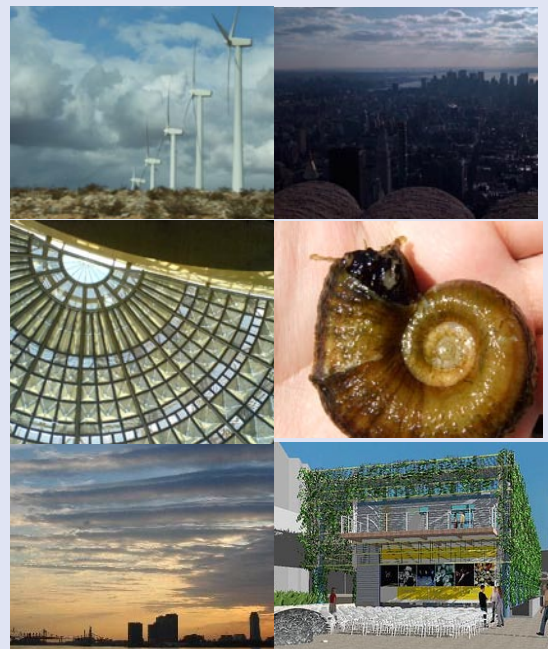

“New York City the Future Metropolis” will be held outside under a large tent space alongside the East River, at our Solar One Education Center. Come and network with other architects, engineers, planners, developers, government, not-for-profits, academia, students, and others. We hope to see you there!

**Thursday, June 10, 6 - 8 pm,
networking to follow
Solar One Education Center
24-20 FDR Drive, Service Road East, NY
(at 23rd Street and the East River)**

**Event Cost: \$10 – general admission,
\$15 - at the door
To register for this event go to
www.solar1.org/nycfuturemetropolis**

SPONSORS & VOLUNTEERS!

We are also looking for sponsors, as well as volunteers! For more information, please contact Diana Pangestu, diana@solar1.org.

NEW YORK CITY THE FUTURE METROPOLIS

SPEAKERS INCLUDE:

Nanotechnology:

- **Edward M. Cupoli, Ph.D.**, Professor and Head, NanoEconomics Constellation, College of Nanoscale Science and Engineering, University at Albany
- **Peter Yeadon and Martina Decker**, Partners of Decker Yeadon LLC to speak on nanotechnology in architectural design

Biomimicry:

- **Mark Dorfman**, Green Chemistry Naturalist at the Biomimicry Guild

Sustainable Urban Forms:

- **Jean-Loup Msika**, Architect/Urban-Designer and Founder of the Sustainable City Project
- **Ken Levenson**, Partner at Levenson McDavid Architects to speak on passive solar design projects

Urban Farming:

- **Benjamin Linsey**, Managing Director at Bright Farms Systems

Waterfront Development:

- **Cortney Worrall**, Director of Programs at the Metropolitan Waterfront Alliance to speak on future waterfront development
- **Stephen Cassell**, Principal at the Architecture Research Office to speak on rising currents

Cleantech:

- **Ronald Smith**, Chairman and CEO of Verdant Power to speak on the East River tide turbine project (RITE Project)
- **John Lembo**, Vice President of Noveda Technologies to speak on energy monitoring systems
- **David Benjamin**, Director of Living Architecture Lab at Columbia GSAPP, Principal at The Livingly to speak on communicating buildings

Energy Centers:

- **Richard Yancey**, Project Director for Green Light NY to speak on a new energy efficiency education and resource center for lighting
- **Christopher Collins**, Executive Director of Solar One to speak on Solar Two, NYC's first carbon neutral net-zero building
